Re: New Directions Aromatics, Inc./C0048285

Dear Lilia Corpus

We wish to thank you for the opportunity to perform the recent organic certification services for your company. We have been able to complete our evaluation of your operation and are pleased to announce that we have found it to be certifiable as organic in accordance with applicable standards and statutes. Attached you will find the certificates and/or letters of compliance which apply to your operation.

The claim "certified organic" is a process, rather than a result, and will always require growth and improvements to maintain the organic integrity of your products. As part of your obligation for ongoing participation in the QAI Organic Certification Program, the Certification Department has asked us to convey to you that your program will require the following action (s) and/or improvement(s).

### **Observations**

CAR No.	T00019590373-4
Description	There were no issues of concern noted during the recent inspection carried out to add certification to the Canada Organic Regime as an importer of organic ingredients. QAI would like to commend New Directions Aromatics, Inc.'s efforts to implement and maintain a compliant organic program.
Compliance	OFI
Standard Clause	Canada - EU Organic Equivalence Arrangement;
Issue date	03-DEC-2025

### **Program and Scope Information**

### **To be verified at next inspection**

The following items must be addressed at your next inspection. These points do not require a response at this time:

You may also log in to NSF Connect to access and review the Opportunity for Improvement ("To be Verified at Next Inspection", "Observations", and/or "Program and Scope Information") points that require your attention and will be reviewed at your next inspection.

Please note that each product/product label on the QAI Organic Certificate and attached System Plan summary has only been reviewed for compliance with the specific organic

standard as listed. Other local, state or federal regulations may apply to the commodity. Therefore, it is the responsibility of the Certified Operation and/or the company that is identified on the label to make sure products and claims on the labels are compliant with all applicable regulations and are truthful. Additionally, when changes are being made, the certified operation must submit revised product information and/or labels to QAI for approval prior to sale of organic products.

Certification remains valid as long as the original terms and conditions continue to be met and until surrendered, suspended or revoked. As a certified operator you must inform QAI of any changes, modifications or amendments to your operation that occur during the year. In addition, you must annually update your system plan and undergo an on-site inspection. We at QAI appreciate your effort and dedication to the organic process and look forward to continue working together. If you have any questions, or require any assistance, please contact me by phone at 1-734-769-8010.

Sincerely,

Lori Hooker
